

Wesco UK Operations – Reorganization Effective April 1, 2017

Wesco Aircraft Holdings, Inc. and its affiliated entities (collectively, “Wesco”) have formed a new UK affiliate, Wesco Aircraft EMEA, Ltd. (“**Wesco EMEA**”). Wesco currently contemplates that Wesco EMEA will commence trading activities beginning on or about April 1, 2017.

Wesco has historically operated its UK Hardware business through Wesco Aircraft Europe Limited. With the acquisition of Haas Group Inc., Wesco acquired a separate UK trading company (Haas Group International SCM Limited) for the chemical business. On or about April 1, 2017, Wesco Aircraft Europe Ltd. and Haas Group International SCM Ltd. (inclusive of its operating divisions RD Taylor and Fasteq) will be reorganized (the “UK Reorganization”). The principal objective of Wesco’s UK Reorganization is to combine the UK entities into a new UK operating company, Wesco EMEA, which will act as Wesco’s principal trading company for the EMEA market. Operating out of a single entity facilitates IT systems integration and presents one face for its customers. In connection with this reorganization, Wesco will be able to dissolve unnecessary UK entities, thus reducing the compliance burden on the company.

The scope of Wesco’s product and service offerings will not be affected. Product will continue to be shipped from Wesco’s facility at Park Mill Way, Clayton West, Huddersfield, HD8 9XJ, United Kingdom.
