

ENVIRONMENTAL POLICY

Wesco Aircraft, as the leader in aerospace product distribution and services is committed to participate in environmental activities to help keep our world clean and green, through our Environmental Management System by:

Ensuring compliance with relevant environmental legislation and regulations.

Achieving our objectives and goals with continual improvements in performance.

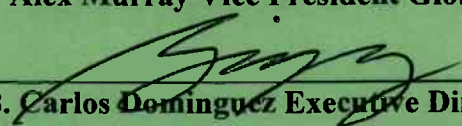

Reducing environmental pollution by recycling and re-using by-products and waste.

Training and communication to all employees for support in reaching environmental excellence.

Having our environmental policy documented, implemented, maintained and available.
